One of my best memories during nouruz was going to my uncle's house .

We got ready at 7 o'clock and arrived there at 8 o'clock .

When we got there we prepared the dinner table and had one of the local food of the north .

After dinner the elders started talking and my cousin and I went to bedroom and talked about our issues .

Then we left the room for a short while and had tea with the elders and then we played a game called mafia . the game was very long and lasted until about 3 hours .

After the game elders went to home but I stayed at my uncle's home .

The next morning when we woke up we played first after breakfast .

After playing we saw a movie . in the evening we went to park .

I think at 10 o'clock my mom came to my uncle's home and we returned to my grandmother's home together .

This memory was one of my best memories during nouruz .

and at the end

Wishing happiness for dear countryman..

Have nice weekend..

Goodbye....
